I got banned or stopped access from many cloud storage sites, difficult to find a website/ server which is forever free, big size, gives big traffic download and does not ban your contents or delete your account.

See also https://youtu.be/Tldv3V5_ej4

too many people asking for KP books, other books, software, video tutorials...etc..so , I do not send any files...books etc..., but I uploaded everything on the web for free access;

biggest collection of free astro-jyotish books + software + video tuitions

have a look at these links; you can download all folders or browse through, choose any file or folder in these links and download for free. No need to register or wait, or anything...no publicity, captcha....etc

I created a new link for the best astronomy program “Starry Night Pro Plus” for mac and windows, it is 2 huge files splitted in multiple rar compressed format. SO better to download them bit by bit or overnight, then decompress with winrar or similar software.

here is the link to view and download the files;

<https://yadi.sk/d/V1U867L1qi2At> a good russian cloud storage sites...just click on the file you want, a bar then appears on top, click the download sign... done
